

SecureNet Guardian — Security Assessment Report

Generated on 2026-07-02 07:10:21 | Target: 192.168.1.10

Open Ports & Services

Port	Service	Risk Note
22	SSH	No common issues flagged.
23	Telnet	Telnet transmits data in plaintext. Prefer SSH.
80	HTTP	No common issues flagged.
445	SMB	SMB has historically been targeted by worms (e.g. EternalBlue). Ensure it is patched and not exposed to the internet.

Potential Risk Findings

Port 23 (Telnet): Telnet transmits data in plaintext. Prefer SSH.
Port 445 (SMB): SMB has historically been targeted by worms (e.g. EternalBlue). Ensure it is patched and not exposed to the internet.

Password Strength Summary

Strength: Strong (3/4), Entropy: 71.2 bits

File Integrity Summary

Unchanged: 2, Modified: 0, Missing: 0
